

3300V ▲ SiC MOSFET relay

AS53F Series

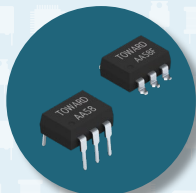

- ▲ High voltage with low on-resistance
- ▲ Fast recovery time
- ▲ SMD16 wide body package
- ▲ Creepage and clearance $\geq 8\text{mm}$ (input to output)

1700V ▲ SiC MOSFET relay ▲ AEC-Q101

AA58 Series

- ▲ DIP and SMD type
- ▲ Higher voltage than conventional Si MOSFET relays
- ▲ AEC-Q101 qualified
- ▲ UL 1577 approved ▲ File no E344988

our phys*SiC*s steps ahead

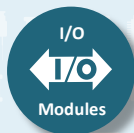

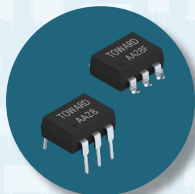

Manufacturer Group of Technology

4.5A▲ Si MOSFET relay

28 Series

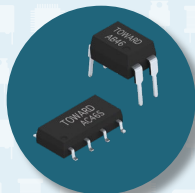

- ▲ DIP and SMD type
- ▲ Switches AC and DC load
- ▲ 4.5A load current
- ▲ Input TTL / CMOS compatible

High frequency▲ Si MOSFET relay

46 Series

- ▲ Low output capacitance with 3pF
- ▲ 80V load voltage
- ▲ One channel and two channel packages available
- ▲ UL 1577 approved ▲ File no E344988
